
The Chairperson

Dear Sir/Madam,

Re: Hypnotherapy

As a member of your Health Fund, I wish to advise you that I have been treated by a qualified Clinical Member of the Australian Hypnotherapists' Association, (with over 500 hours of Clinical Hypnotherapy and related training) and have found the level of expertise and effectiveness of my treatment by such, to have been most effective.

I am surprised to learn that my health fund does not offer a rebate for this valuable treatment, which has fantastic results and is a growing modality for improved health and wellbeing. Therefore I kindly ask that you urgently consider including Hypnotherapy, by a Clinical Member of the AHA in your portfolio of available treatments.

I believe that Hypnotherapy Services provided by a trained professional hypnotherapist, such as a member of the Australian Hypnotherapists' Association who meet the Private Health Insurance (Accreditation) Rules 2008, should be offered provider recognition for this service.

To my understanding, you can contact the Australian Hypnotherapists' Association directly to discuss and arrange a provider service, on the Free Advisory Line 1800 067 557.

Yours sincerely,

Health Fund Member Number: _____
